CO₂ and fuel consumption values will vary dependent on vehicle specification.

Build your BMW and decide the specification using the [online configurator](#).

* = WLTP figures shown are for comparability purposes. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post registration), variations in weather, driving styles, fuel type and vehicle load.
