

PERFORMANCE & TECHNICAL DATA.

THE BMW M3 COMPETITION SALOON.

PETROL	Power output (hp)	0-62mph / 0-100km/h (secs)	Fuel consumption - combined (mpg)*	Fuel consumption - combined (l/100km)*	CO ₂ emissions - combined (g/km)*
M3 Competition Saloon	510	3.9	28.8	9.8	224-223
M3 Competition M xDrive Saloon	510	3.5	28.0-28.2	10.1-10.0	230-228

CO₂ value will vary dependent on vehicle specification.

Build your BMW and view the CO₂ figure for your chosen model and specification using the [online configurator](#).

* = Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO₂ figures shown above have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.
