CO₂ and fuel consumption values will vary dependent on vehicle specification.

Build your BMW, view the CO₂ and fuel consumption figures for your chosen model and decide the specification using the [online configurator](#).

* = These figures were achieved using the WLTP test procedure. The figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
